AICHAOUI OUSSAMA
Full Stack Developer & Information System Administrator

PROFILE

I am a Full Stack Developer and Information System Administrator with over 7 years of experience in software engineering. I excel at solving complex problems and delivering innovative solutions to enhance processes and drive business growth.

PROFESSIONAL EXPERIENCE

EURL PAYD   **Bab Ezzouar, Algeria**
Full-Stack Developer   **Sep 2024 - Jan 2025**
- Contributed to Click2Secure, automating assurance workflows for enhanced efficiency and security.
- Designed and implemented the Renewal Module, streamlining assurance renewals.
- Utilized the Filament PHP framework to deliver scalable and maintainable solutions.
- Collaborated on tasks in a project of moderate to high complexity, expanding technical expertise.

SARL ETPB CHEMRINE   **Blida, Algeria**
Full-Stack Developer   **MAY 2020 – Mar 2022**
- Developed a PHP (Laravel) web platform, increasing backend efficiency.
- Created engaging front-end experiences with React.js and SCSS.
- Built RESTful APIs for mobile app integration and real-time data updates.
- Integrated Twilio for SMS notifications and Google Maps for location services.
- Ensured security during deployment and conducted unit and integration testing.
- Designed and optimized MySQL databases and documented APIs for future reference.

DJEZZY   **Dar El Beïda, Algeria**
Database Engineer   **JUN 2018 – Jan 2019**
- Conducted interviews to gather project requirements for managers.
- Analyzed information flow to identify inefficiencies.
- Developed a MySQL database for project management tasks.
- Built a web app using PHP, Bootstrap, CSS, and jQuery for project managers.
- Secured applications with access rules to protect sensitive data.
